

Press Release

Central Agency for Public Mobilization And Statistics

12.1 % an increase in the total amounts transferred by means of transportation of petroleum products in 2014/2015

Central Agency for Public Mobilization and Statistics released today 30 / 3/2016 Annual Bulletin of the means of transport of petroleum products in 2014/2015 The following are the most important indicators:

- The total amount transferred by means of the transportation of petroleum products reached 146.9 million metric tons in 2014/2015 while it was 131.1 million metric tons in 2013/2014, a decline of 12.1% As the highest amounts transferred by Sumed line reaching 64.2 million metric tons and he lowest amounts were transported by rail tankers, reaching 530.3 thousand metric tons.
- Rate Estimated of Railway power reached 1.1 million metric tons, while the actual amount transferred reached 0.5 million metric tons at a deficit of 54.5 % of the estimated energy in 2014/2015.
- Transferred amount by tankers reached about 17.9 million metric tons in 2014/2015 while it was 16.1 million metric tons in 2013/2014, an increase of 11.2 %.
- Total number of main and internal oil Pipeline Company totaled 58 line and reached a total length of 5.4 thousand km in 2014/2015 .
- The total quantities transported by oil Pipeline Company, including lines (raw material oil, condensates) 59.1 million metric tons in 2014/2015 while it was 57.5 million metric tons in 2013/2014, an increase of 2.8 %.
- Transferred quantities of crude and petroleum products by coastal tanker reached 5.3 million metric tons in 2014/2015 while it was 5.4 million metric tons in 2013/2014, a decline of 1.9% due to the failure of the coastal tankers transfer of petroleum products this year.
- The overall average cost of transporting metric tons of petroleum products veached 96.2 pounds in 2014/2015 while it was 99.3 pounds in 2013/2014, a decline of 3.1%The highest average cost of the transfer reached 258.4 pounds per metric tonne of butane the transfer of petroleum products lines, an increase of 168.6% from the annual average, and lowest average cost per metric ton of line sumed reached 14 pounds, a decline of 85.4% from annual average due to transmits crude oil only without manufacturing
- The total cost of the transfer of moved quantities reached 14.1 billion pounds in 2014/2015 while it was 13 billion pounds in 2013/2014, an increase of 8.5% .
