Central Agency for Public Mobilization And Statistics

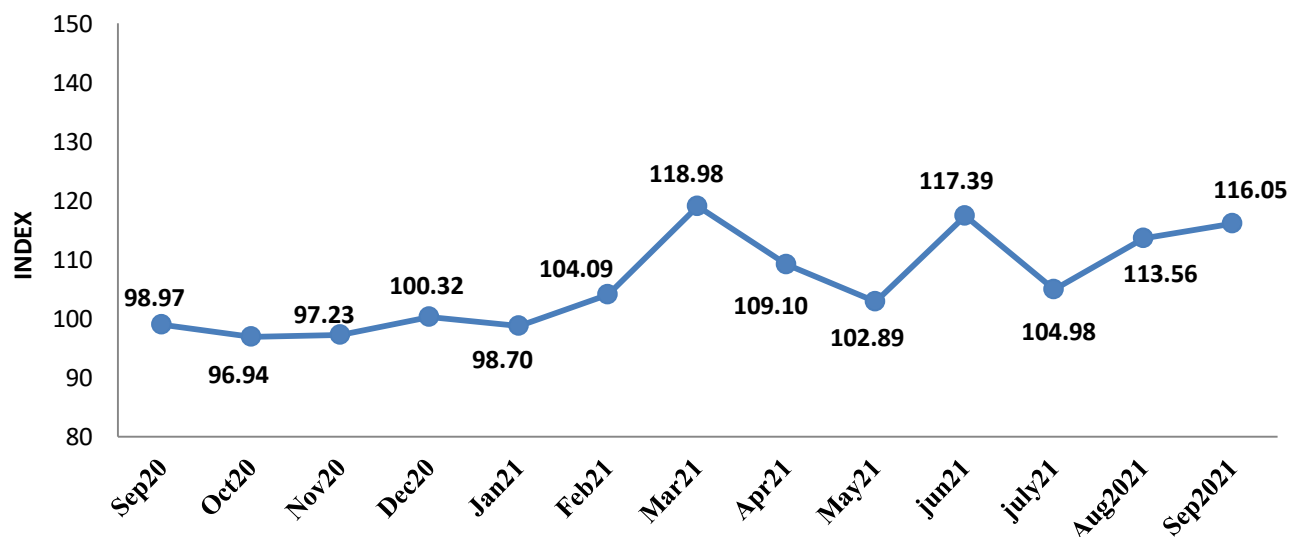

2.20 % increase in Manufacturing and extractive index during September 2021

Central Agency for public Mobilization and Statistics (CAPMAS) issued on 25 /11/2021 a press release of primary data of manufacturing and extractive industries of production index of September 2021.

CAPMAS has updated the index methodology using the base year 2012/2013 and at the level of main indices of industrial activity according to Industrial Activity Manual (ISIC Rev.4) and by using the monthly index (for producer prices based on 2012/2013).

Manufacturing and extractive industries index (excluding crude oil and petroleum products) reached 116.05 during September 2021 (primary) compared to 113.56 during August 2021 (final) increase by 2.20 %.

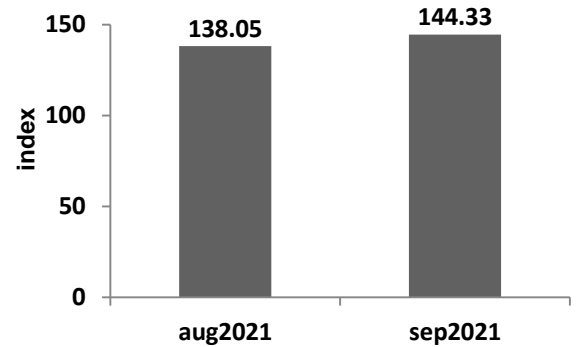

Manufacturing and Extractive Index (excluding petroluem) from september 2020 to september2021

Economic Activities that witness an increase are as followed:

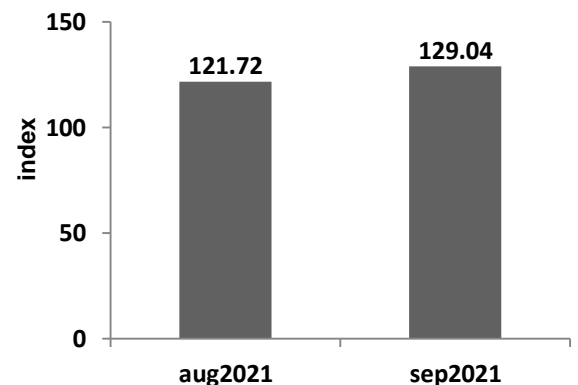

- Manufacture of food products reached 144.33 during September 2021, compared to August 2021, reaching 138.05 an increase by 4.55%, due to meet the needs of the market.

Manufacture of food products

- The Manufacture of basic pharmaceutical products and pharmaceutical preparations reached 129.04 during September 2021, compared to August 2021, reaching 121.72, an increase by 6.01% To increase the demand for medicines in light of the Corona crisis.

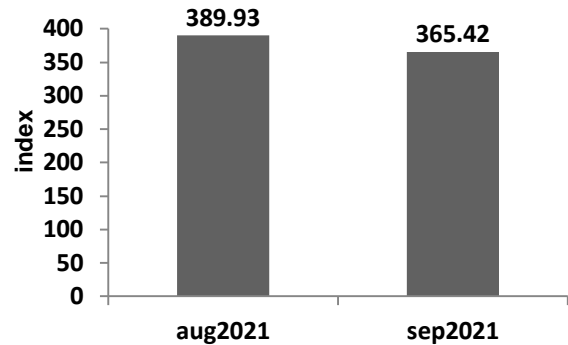

Manufacture of basic pharmaceutical products and pharmaceutical preparations

A decrease in the level of the following economic activities:

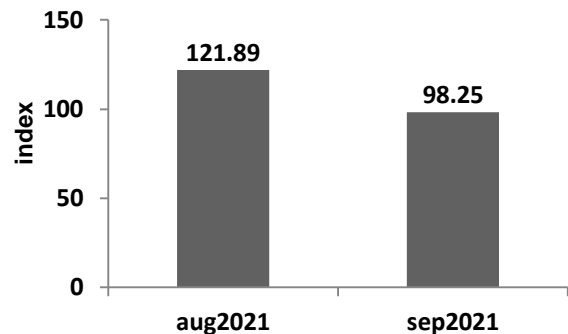

- Manufacture of beverages reached 365.42 during September 2021, compared to August 2021, reaching 389.93 a decrease by 6.29%, due to market needs.

Manufacture of beverages

- Manufacture of electrical equipment reached 98.25 during September 2021, compared to August 2021, reaching 121.89 a decrease by 19.39%, due to the decrease in the demand for a number of electrical appliances as a result of entering the winter season.
