## Central Agency for Public Mobilization And Statistics

### **4.5% increase in the quantity of produced pure water in 2015/2016**

Central Agency for Public Mobilization and Statistics (CAPMAS) issued today 7 / 5 / 2017 the annual bulletin of drinking water and sanitation statistics 2015/2016. The main indicators were the following:

#### **Pure drinking water**

- The total quantity of pure water produced is 9.3 billion m3 in 2015/2016, compared to 8.9 billion m3 in 2014/2015, an increase of 4.5%.
- The total number of pure water stations produced from surface water (Nile River 1043 stations with a production capacity of 8.3 billion cubic meters in 2015/2016.
- The total number of pure water stations produced from wells water is 1605 stations with a production capacity of one billion cubic meters in 2015/2016
- The total number of pure water stations produced from sea (desalination) 46 stations with a production capacity of 22 million m3 in 2015/2016 .
- The per capita average of produced pure water was 102.1 m3 in 2015/ 2016 compared to 101.1 m3 in 2014/2015, an increase of 1%.
- Water loss quantity 2015/2016 was 2.7 billion cubic meters compared to 2.8 billion cubic meters in 2014/2015, a decline of 1.6%.
- The percentage of submitted samples conformity for tests from production stations of companies following Holding Company for drinking water and sanitation reached 98%, while the percentage of production stations belonging to Suez Canal Authority reached 95.5%. The percentage of matching in the distribution networks of companies following holding company was 95.6%, compared to 97.5% of Suez Canal Authority distribution networks.

#### **Sewage**

- The total amount of the combined drainage reached 4.97 billion m3 in 2015/2016, compared to 5.05 billion m3 in 2014/2015 , a decrease of 1.5%, due to some stations maintenance work.

- The total number of wastewater stations reached to 398 stations in 2015/2016 compared to 391 stations in 2014/2015, an increase of 1.8%.
- The total amount of treated wastewater is 3.82 billion m3 in 2015/2016 compared to 3.76 billion m3 in 2014/2015, an increase of 1.8%.
- The total number of treated wastewater stations is 388 stations in 2015/2016 compared to 391 stations in 2014/2015, a drop of 0.8% due to combination of some stations
