

Press Release

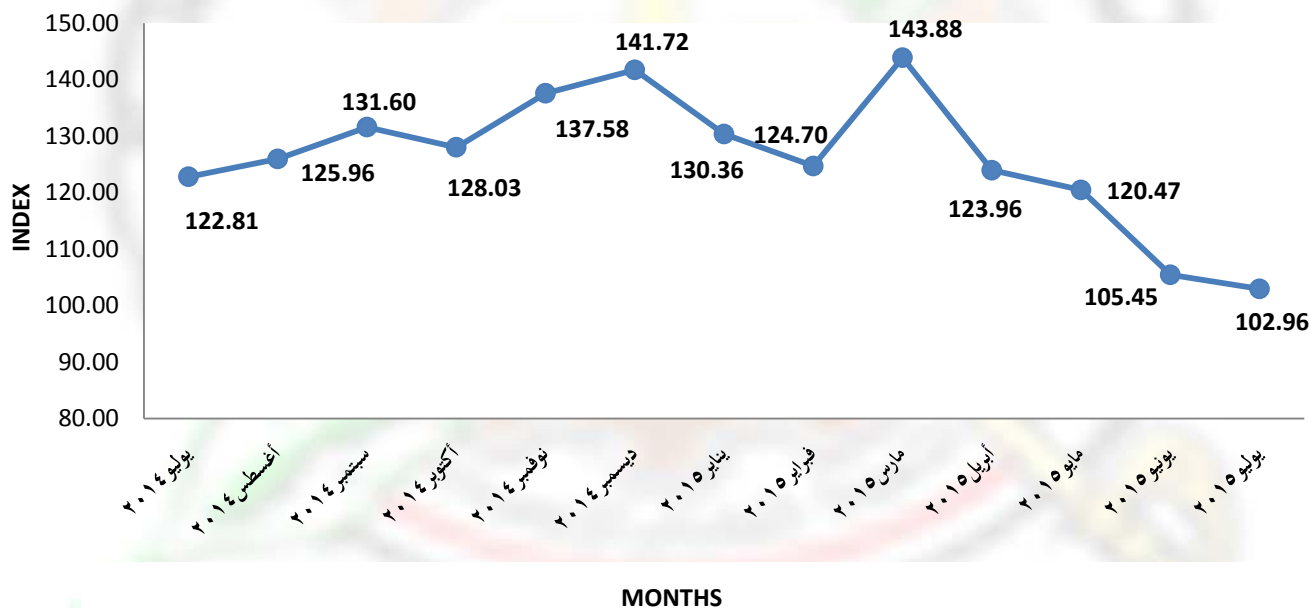

Central Agency for Public Mobilization And Statistics

2.3% decrease in the production index of manufacturing and extractive industries during July 2015 compared to June 2015

Central Agency for public mobilization and statistics (CAPMAS) issued on ٢٠ / ٩ / 2015 metadata of the production index of manufacturing and extractive industries for July 2015 according to the base year 2006/2007.

Most important indicators are as follows:

The monthly index of manufacturing and extractive industries
from JULY.2014 -JULY.2015

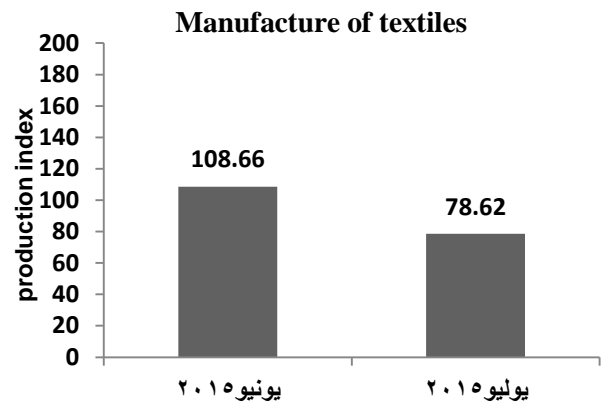

The production index of manufacturing and extractive industries (without crude oil and petroleum products) reached **102.96** in **July 2015 (primary)**, a decrease of 2.3% compared to **June 2015**, as it reached **105.45 (final)**.

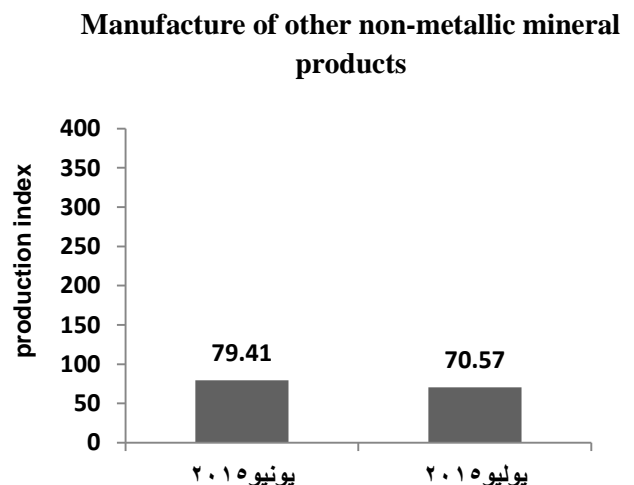

A decrease at the level of the following economic activities:

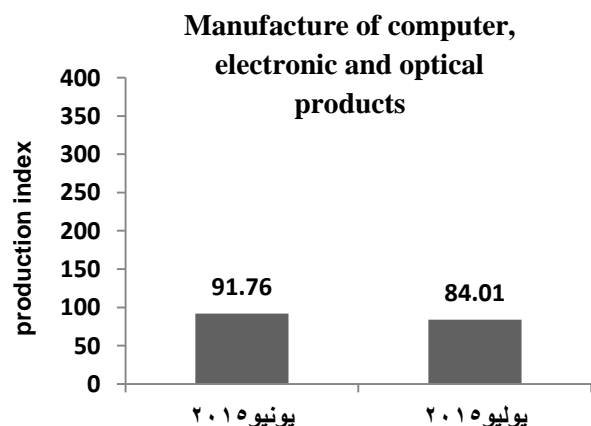

- Total index for manufacture of textiles reached 78.62 during July 2015, compared to 108.66 in June 2015, a decrease of 27.6% due to non-availability of raw material and low demand for the product.

- Total index for manufacture of other non-metallic mineral products reached 70.57 during July 2015 compared to 79.41 during June 2015, a decrease of 11.1% due to the market status where there is a stability of cement prices since the beginning of the year that pushes companies to reduce production.

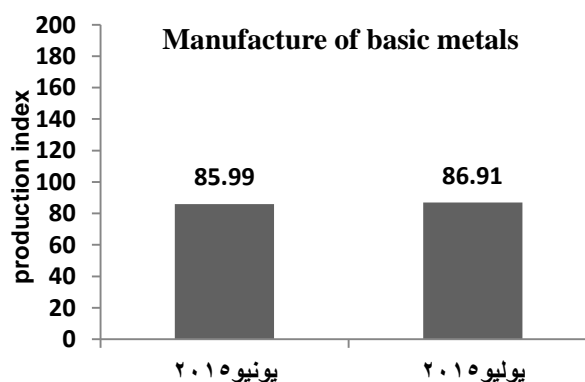

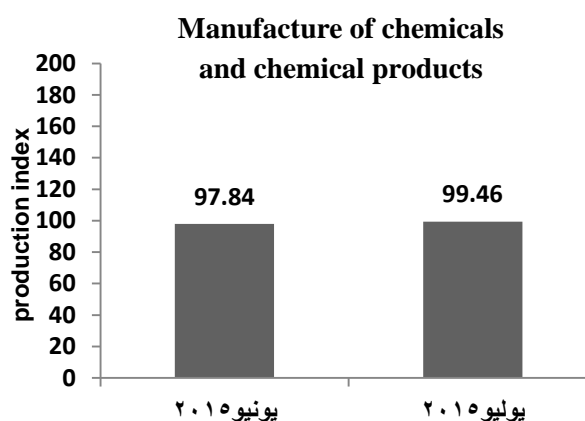

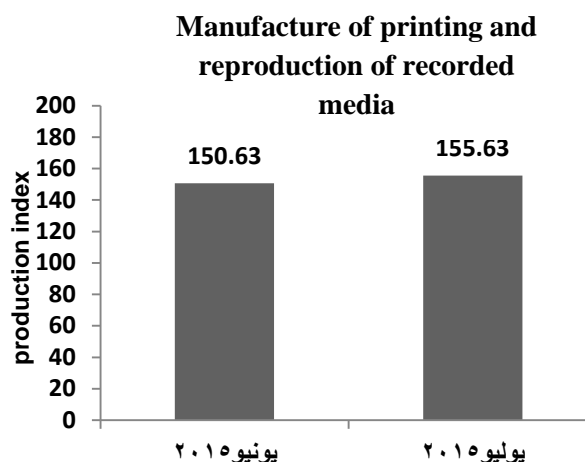

- Total index for manufacture of computer, electronic and optical products reached 84.01 during July 2015 compared to 91.76 in June 2015, a decrease of 8.4% due to reduced demand for products.

An increase at the level of the following economic activities:

- Total index for manufacture of printing and reproduction of recorded media reached 155.63 during July 2015, compared to 150.63 in June 2015, an increase of 3.3% due to preparations for the new academic year.
- Total index for manufacture of chemicals and chemical products reached 99.46 during July 2015, compared to 97.84 in June 2015, an increase of 1.7% due to high production of some of the fertilizer companies and health products.
- Total index for Manufacture of basic metals reached 86.91 during July 2015, compared to 85.99 in June 2015, an increase of 1.1% due to stability of the power supply by a simple ratio.
