Central Agency for Public Mobilization And Statistics

0.8% increase in Manufacturing and extractive index during February 2018

Central Agency for public mobilization and statistics (CAPMAS) issued on 18 / 4 / 2018 metadata of the production index of manufacturing and extractive industries for February 2018.

The manufacturing and extractive industries index (without crude oil and petroleum products) is 123.69 during February 2018 (primary) compared to 122.65 during January 2018 (final) an increase of 0.8 %, this is due to the high supply contracts for the electrical appliance industry and the production of the beverage industry.

Manufacturing and Extractive Index from Feb.2017 to Feb.2018

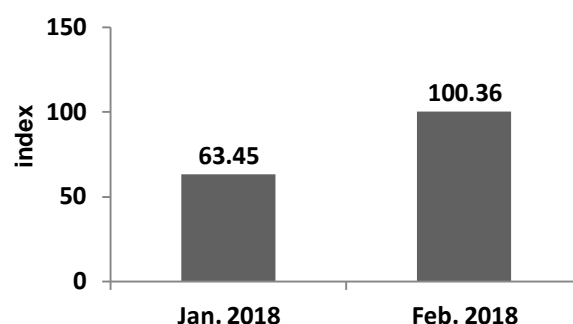

An increase at the level of the following economic activities:

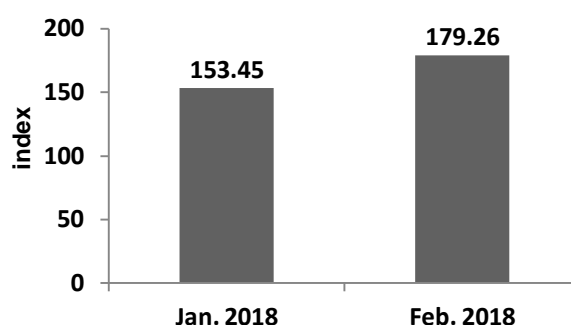

- The Manufacture of beverages products index reached 100.36 in February 2018 compared with January 2018, reaching 63.45, an increase of 58.2% Due to increased production of beverages (carbonated and mineralized water) due to prepare to start the summer season.

Manufacture of beverages

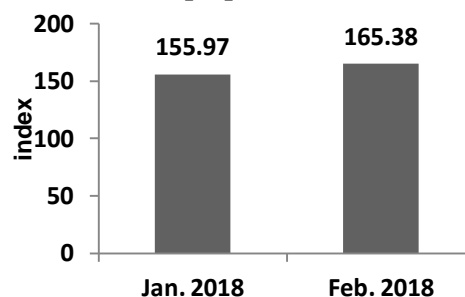

- The Manufacture of wearing apparel products index reached 179.26 during the month of February 2018 compared to 153.45 in January 2018, an increase of 16.8 % Due to the readiness to cover the needs of the summer season and holidays.

Manufacture of wearing apparel

- The Manufacture of machinery and equipment n.e.c. index reached 165.38 in February 2018 compared to January 2018, reaching 155.97, an increase of 6.0% Due to increased export sales and increased product of air conditioners.

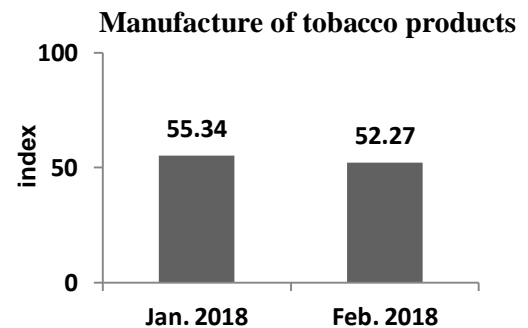

Manufacture of machinery and equipment n.e.c

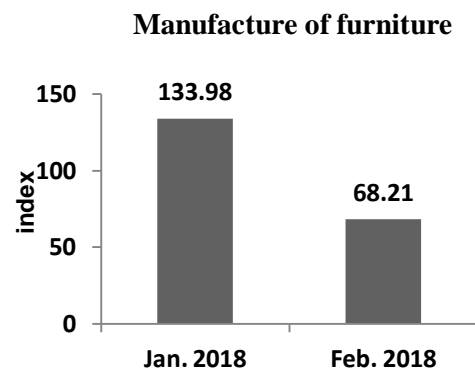

A decrease at the level of the following economic activities:

- The Manufacture of tobacco products 52.27 in February 2018 compared to January 2018, reaching 55.34, a decrease of 5.5% Due to low demand rates.

- The Manufacture of furniture 68.21 in February 2018 compared to January 2018, reaching 133.98, a decrease of 49.1% Where production is done in accordance with supply contracts and the availability of raw materials.
