## Central Agency for Public Mobilization And Statistics

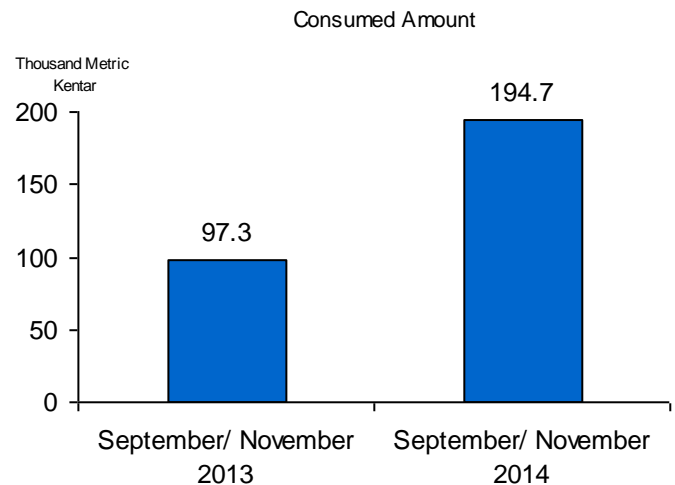

### 21.1% decrease in the Egyptian cotton exports during The First quarter of the agricultural season 2014/2015

Central Agency for Public Mobilization and Statistics issued in 4 / 2 / 2015 the quarterly bulletin of cotton for the first quarter (September/ November) for the agricultural season 2014/2015, the most important indicators are as follows:

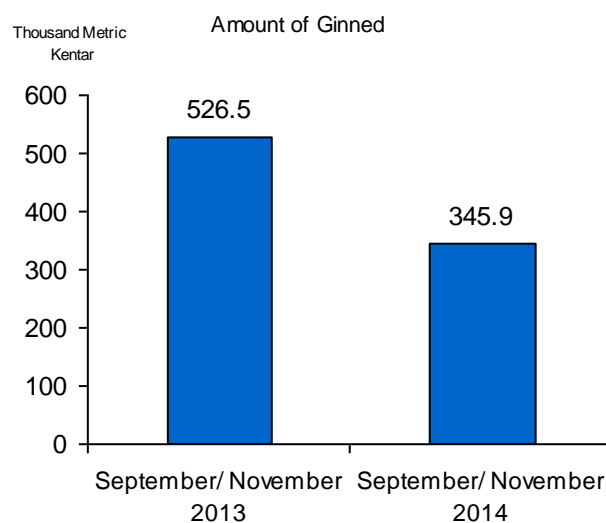

- The total exports of Egyptian cotton reached 62,8 thousand metric Kentar during the period (September/ November) 2014 compared to 79,6 thousand metric Kentar during the same period of the previous season a decline of 21.1%. due to the decrease of ginned cotton .

- The amount of local consumed cotton reached 194,7 thousand metric Kentar during the period (September/ November) 2014 compared to 97.3 thousand metric Kentar at the same period of the previous season, an increase of 100.1% This is not a real increase but caused a sharp drop in the previous season , which reached 76.6 % .

**-The amount of ginned cotton reached 345.9 thousand metric Kentar during the period (September/ November) 2014 compared to 526.5 thousand metric Kentar at the same period of the previous season, a decrement of 34.3%. due to the decrease of cultivated area .**
