

Press statement

Central Agency for Public Mobilization And Statistics

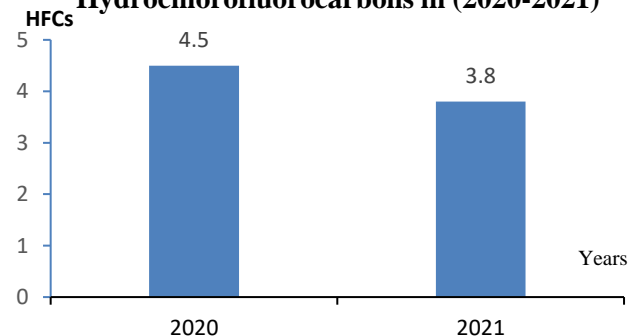

On the occasion of the International Day for the Preservation of Ozone Layer **15.6% reduction in the amount of consumption of the ozone layer depleting substances** **(Hydrochlorofluorocarbons) in Egypt in 2021 compared to 2020**

Central Agency for Public Mobilization and Statistics issued Thursday 15/9/2022 a press release on the occasion of the celebration of the World Day for the Preservation of Ozone Layer for (2022), that is celebrated in 16th September annually, which is the anniversary of signing Montreal Protocol in (1987), Concerning substances that deplete the ozone layer, which is an international treaty aimed at protecting ozone layer by phasing out the production of some substances responsible for ozone layer erosion. The number of countries that have signed the protocol so far has reached 190 countries. The theme of this year 2022 celebration is (Montreal Protocol@35 global cooperation to protect life on Earth).

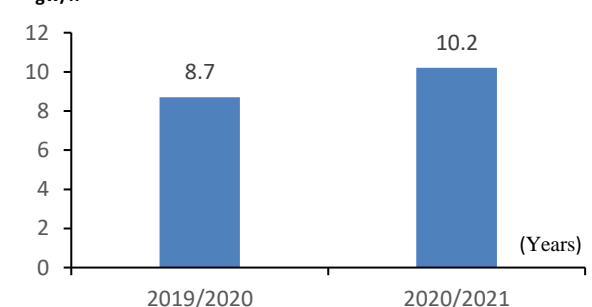

The most important indicators are :

- The amount of consumption of ozone-depleting substances in Egypt (HFCs) decreased from 4.5 thousand tons in (2020) to 3.8 thousand tons in (2021), a decrease by 15.6%.
- The amount of generated electricity in Egypt from renewable energy sources (wind/solar) increased from 8.7 thousand GW.h in (2019/2020) to 10.2 thousand GW.h in (2020/2021), an increase by 17.2%.

**Consumption of Ozone-depleting substances in Egypt ,
Hydrochlorofluorocarbons in (2020-2021)**

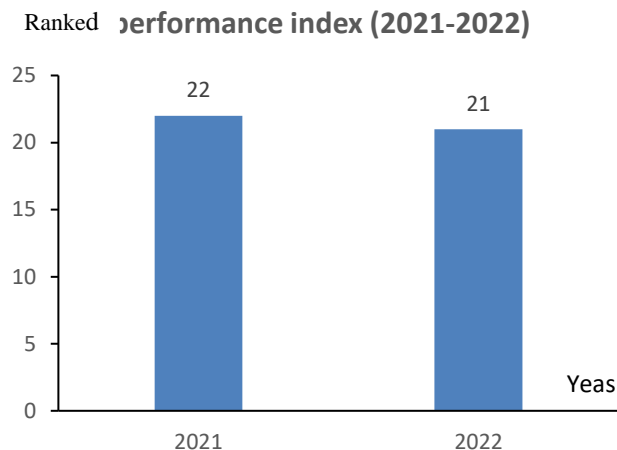

**Evolution of Generated Electric Power
from Renewable sources (Wind and Solar)
in Egypt in (2019/2020, 2020/2021)**

- Egypt ranked 21 out of 64 countries in Climate Change Performance Index (CCPI) during (2022), an indicator that aims to assess policies and programs in different countries to confront climate change, and is issued by German Environment and Development Organization (German Watch). An updated version of it is submitted to the United Nations Climate Change Conference annually.

Egypt's ranking in the climate change performance index (2021-2022)
