

Press Release

Central Agency for Public Mobilization And Statistics

2.2% decrease in total transported quantities Of petroleum materials in 2016/2017

Central Agency for Public Mobilization and Statistics (CAPMAS) issued On 5 / 2 / 2018 the annual bulletin for means of transport of petroleum materials 2016/2017 the most important indicators are as follows:

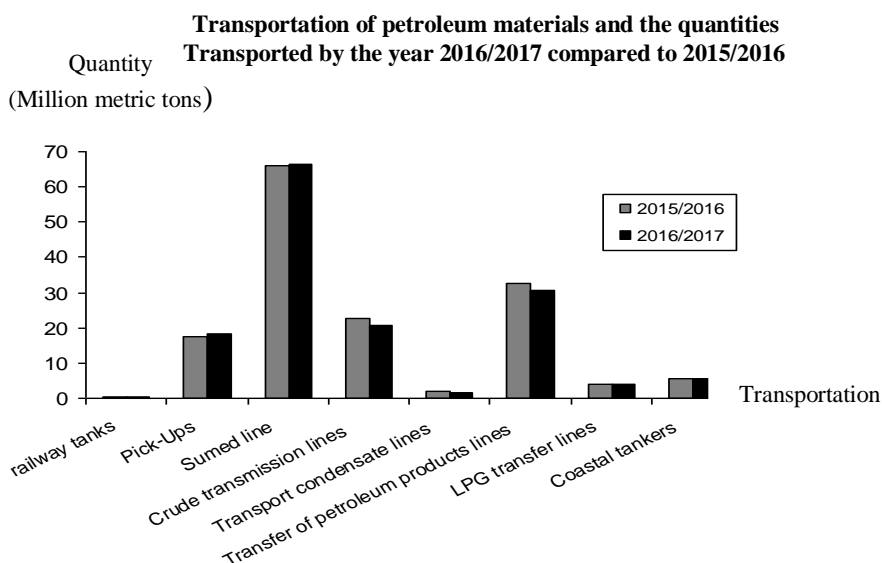

- Total quantities transported by means of transportation of petroleum materials reached 147.1 million metric tons in 2016/2017, compared to 150.4 million metric tons in 2015/2016, a decrease by 2.2%.

- Quantities transported by Sumid line reached 66.3 million metric tons in 2016/2017 with a transport cost of 37 pounds, compared to 65.8 million metric tons in 2016/2016 with a transport cost per ton of 36 pounds, an increase in quantities by 0.7%, which represents the highest transported quantities.

- Quantities transported in Lorries 18.1 million metric tons in 2016/2017 at a transport cost per ton of 41 pounds, compared to 17.6 million metric tons in 2015/2016, at a transport cost of 45 which represents the highest transported quantities 3.2%.

- Total number of lines of Main and Internal Petroleum Pipelines Company reached 58 lines, the total length of 5.6 thousand km in 2016/2017.

- Total quantities of petroleum materials Included petroleum products, crude oil, condensates and potagings through the pipelines of the Petroleum Pipeline Company reached 56.9 million metric tons in 2016/2017 at a cost of LE(354, 180, 73 and 256) pounds, compared to 61.1 million tons In 2015/2016 , a decline of 6.9%.

- Quantities of transported crude oil and petroleum materials in coastal tankers reached 5.4 million metric tons, of which 5.3 million metric tons are raw, 0.1 million metric tons of products in 2016/2017 at a transport cost of 66 pounds per ton.
 - Total volume of transported petroleum by railway tankers reached 414.3 thousand metric tons in 2016/2017 at a transport cost of 87 pounds, compared to 446.1 thousand metric tons in 2016/2016 at a transport cost per ton of 19 pounds with a decrease of 7.1% which represents the least quantities transported.
- ☐
- Total cost of the quantities transported from petroleum materials reached 19.3 billion pounds in 2016/2017, compared to 18.1 billion pounds in 2015/2016, an increase of 6.5%.
- ☐
