

## Press Release

# Central Agency for Public Mobilization And Statistics

### 63.8 billion Cubic meters, total transported quantities natural gas in 2018/2019

Central Agency for Public Mobilization and Statistics (CAPMAS) issued On 15/3/2020 annual bulletin petroleum materials means of transportation and natural gas in Egypt 2018/2019. most important indicators are as follows:

- Total transported quantities

by means of transportation

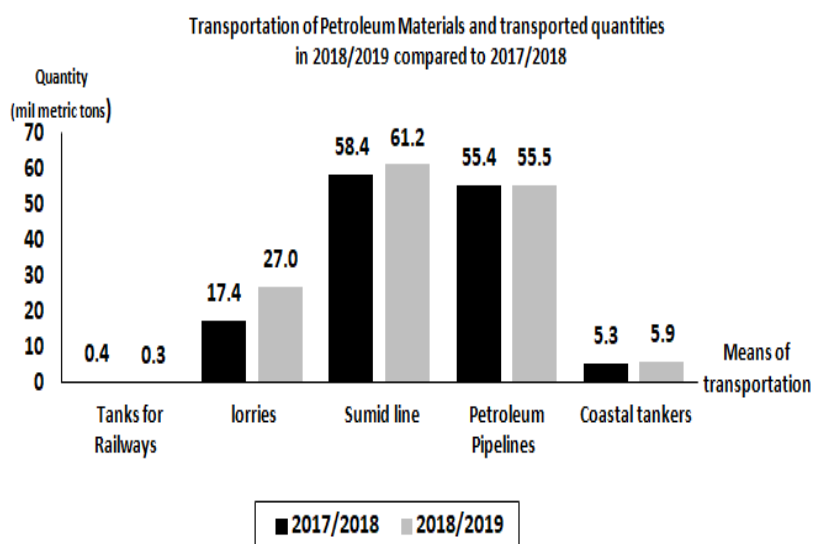

of petroleum materials reached

149.8 million metric tons

in 2018/2019, while it was

136.9 million metric tons in

2017/2018, an increase of 9.4%.

- Total volume of transported

petroleum by railway tankers

reached 282.5 thousand metric tons in 2018/2019 with average transport cost per ton 120 pounds,

compared to 385.1 thousand metric tons in 2017/2018, a decrease of 26.6%, which represents the least transported quantities.

- Transported quantities in Lorries 27 million metric tons in 2018/2019 with average transport cost per ton

of 53 pounds, compared to 17.4 million metric tons in 2017/2018, an increase of 55%.

- Transported quantities by Sumid line reached 61.2 million metric tons in 2018/2019 which represents the highest transported quantities compared to 58.4 million metric tons in 2017/2018, an increase of 4.8%.

- Number of main pipelines reached 80 lines, with total length of 5.8 thousand km in 2018/2019.

- Total quantities of petroleum products, including( petroleum products, crude, condensates, and Gasstove) by pipelines of petroleum reached 55.5 million metric tons in 2018/2019 with average transport cost per ton( 438, 278, 113 and 349) pounds, compared to 55.4 million metric tons in 2017/2018 an increase of 0.2%.
- Quantities of crude oil and petroleum products in leased coastal tankers reached 5.9 million metric tons 2018/2019 with average a transport cost per ton 126 pounds per ton, compared to 5.3 million tons in 2017/2018 an increase of 10.7%.
- Transported quantities of natural gas reached 63.8 billion cubic meters in 2018/2019, of which:-
  - 61.3 billion cubic meters for local market at a rate of 96.2%.
  - 2.5 billion Cubic meters for export at a rate of 3.8%, with an average cost of transporting cubic meters 0.03 pounds for both of them.
- Total cost of natural gas transportation reached 1.9 billion pounds while total cost of petroleum products transportation reached 21.9 billion pounds in 2018/2019.
