

### PRESS RELEASE

## **Central Agency for Public Mobilization and Statistics**

# 16.4% An increase in the value of idle capacity in public sector / public business for the year 2015/2016

Central Agency for Public Mobilization and Statistics (CAPMAS) issued on ,2017/12/20 , The annual Bulletin of the actual production, idle capacity and inventory of total production of industrial activities in public / public business sectors 2015/2016, The most important indicators are:-

### The Idle capacity:-

- The total value of idle capacity reached 7.2 billion pounds in 2015/2016 compared to 6.2 billion pounds in 2014/2015, an increase by16.4%, and this is due to lack of raw materials and difficulties in marketing.
- Food industry contributed with the highest percentage of idle capacity in 2015/2016 it reached 40.7%, followed by textile manufacture as it reached 23.9%.

### 

years

2015/2016

2014/2015

value of idle capacity

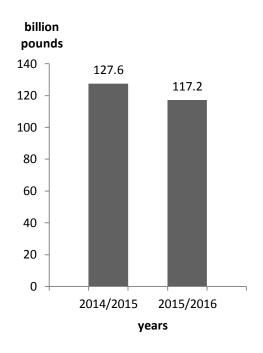

#### Total production at selling price:-

- The total value of production at selling price reached 117.2 billion pounds in 2015/2016 compared to 127.6 billion pounds in 2014/2015 a decrease of 8.2% due to the contribution of some companies of public / public business sectors to the production of some goods for the benefit of others which do not fall into value of actual production such as activities food products (vegetable oils) and textile manufacture.
- Coke and refined petroleum products manufacture contributed with the highest percentage of total production in 2015/2016 it reached 63.1%, followed by the food products industry by12.2%.

# Inventory of full production at the end of the year:-

• The total value of total production inventory reached 6.7 billion pounds in 2015/2016, compared to 7.3 billion pounds in 2014/2015, a decrease of 8.7%. This is due to the decrease in the value of full production inventory at end of year for some industries like, extraction of crude petroleum manufacture and natural gas, followed by motor vehicles, trailers and semi trailers manufacture.
